Discipline ; Gayathri, Gokul, Gopika, Gowri, Nayana, Sandhya, Soorya

PROGRAMME REPORT Under the supervision of faculties Mrs. Sheeja Mol, Professor; Mrs. Preethi, Lecturer; Mrs. Nivya S.R., Lecturer; Mrs. Siya Tutor, Mrs. Akshaya, Nursing Tutor of Community Health Nursing Department, SGNC went to Sree Sankara College Nagaroor for conducting health screening. The programme was hosted by 5th sem bsc nursing students. On arrival, we met the principal of the school and obtained permission for conducting the programme. Large classrooms were arranged, equipped with tables and chairs, for the systematic running of the programme. Separate areas for medical consultation were also fixed. Registration counters were established to get adequate data of the clients. Health check-up was started at 10:00 AM for first year and third year students. Students obtained a data sheet from the registration counters, and findings were noted in that slips till the end of the check-up. Health check-up included monitoring vital signs, measuring anthropometric measurements such as height, weight, BMI calculation, head-to-toe, physical examination, eye and ENT examination, and medical examinations through OP consultation. Doctors gave appropriate medical advice according to the complaints. They were recorded on time. Students of first year, third year and faculties of these students received the services provided by us. Individual physical assessments and medical consultations of students and adults were completed by 1:30 PM. Abnormal findings were noted, and data recorded. Throughout the process,

faculties, and other staff were so supportive and encouraging for the timely completion of this programme. We thanked the principal and staff, along with our faculties, for all the facilities arranged at the college for the smooth running of the programme.

## **CONCLUSION**

The Health screening Programme was organised and conducted in a systematic manner. It was an educative and beneficial for the students of 5th semester bsc nursing students and post basic bsc nursing students. It helps to identify the health problems in the community.
